After

The screenshot shows the OperatorFabric interface. At the top, there's a navigation bar with 'Card Feed', 'Archives', and 'ThirdParty App#1'. The main area is divided into several sections:

- Calendar:** A calendar view for 31/10/19 17:35 showing a timeline with colored markers (red, yellow, green, blue) indicating process instances.
- Card Feed:** A list of process instances with details like 'TEST: PROCESS TITLE VALUE' and time ranges.
- MyProcess status report:** A section titled 'MyProcess status report' with a sub-header 'Instance #1 of process "MyProcess" is currently in step 7 and waiting for your input.' Below this is a table of 'Current process data'.
